What is Solarman smart cloud platform?

SOLARMAN has developed a complete intelligent PV solution including hardware, software and data analysis to offer smart energy for global customers. SOLARMAN smart cloud platform has been a global leading PV monitoring and management platform, focuses on managing distributed PV power plants worldwide.

What products does Solarman offer?

offers a complete solar monitoring & management hardware products include various data logger, smart meter, weather station, optimizer, rapid shutdown and so on. SOLARMAN brings comfortable and eco-friendly life to global users. SOLARMAN has established a close cooperation relation with ZCS in Italy, CORAB in Poland.

Does Solarman support OEM & customized services?

All SOLARMAN hardware & software products can support OEM and customized services. SOLARMAN monitoring and management system is compatible with all major inverter/device brands all over the world. We can facilitate your centralized remote monitoring and management of your equipment, providing great convenience for your operation and maintenance.

Can Solarman help build a zero-carbon society?

Global energy shortage, Electricity prices continue to rise, use more of solar photovoltaic, so that you can have electricity available at any time and reduce electricity expenses, without the trouble caused by skyrocketing of electricity prices. To help build up a zero-carbon society, SOLARMAN, as a smart energy expert, is on the way.

A smart data logger is a small hardware device that is usually connected to a main device (such as inverter, combiner box, battery) through an interface such as USB, Aeronautical head or DB9 to expand its functions or provide additional services.

SOLARMAN weather station is specifically designed for PV system. It provides a comprehensive environmental monitoring solution for users including irradiance, ambient temperature and humidity, wind direction and speed, and module temperature.

PV Professionals Streamline business process and realize highly efficient O& M for installers, service providers and distributors. Coverage of All Phases of PV Plants SOLARMAN solution is powered by information technology and IoTs technology, and covers all three phases of power stations. During development, construction and operation periods, we furnish plant developers, ...

Rufen Sie bitte folgende Seite auf: <https://home.solarmanpv> ; Falls Sie schon ein Konto haben, bitte direkt einloggen, ansonsten das Feld neues Konto erstellen wählen, dort wählen Sie oben im Menü; das Feld Rechenzentrum International. Im nächsten Schritt im Menü; Logger

hinzufügen auswahlen und danach die Seriennummer hinzufügen. Wichtig

just go to <https://home.solarmanpv> and create an account and pair it with your inverter hardware (similar to what you probably already did with the smartphone app) Use the credentials of your just created account for the api access (email, password) The password must be hashed using e.g. SHA256 Online as already mentioned above.

PV monitoring refers to the real-time data collection and analysis of photovoltaic power generation systems through various technical means to ensure the optimal performance of the system and timely detect potential problems. These technologies usually include sensors, data loggers, communication equipment, and data analysis software. Application of PV ...

SOLARMAN Smart is a brand new smart energy management application, which is specially designed for global household owner users. With full-on visual experience, user-friendly data display and all-round monitoring functions, SOLARMAN Smart makes smart energy management easier for everyone.

Home Energy Management Wisely managing energy use has been a high priority when households are on the way to pursue a smart life with sustainable energy, improved efficiency and reduced bills. By applying advanced technologies of IoTs (Internet of Things) and wireless communication and etc., SOLARMAN products are able to connect a variety of devices in your ...

Welcome to visit to experience new features and services of SOLARMAN. If you have any suggestions and comments, please feel free to contact us. We will reply your message as soon as possible.
