

The electricity will be generated by a solar photovoltaic plant under construction in Cross Mabale, a small village near the mining town of Hwange in northwestern Zimbabwe. The solar project is being developed by SolGas Energy, an independent power producer (IPP) based in Harare the capital.

Solgas Energy secured US\$7m for the construction of the 5MW solar plant, but Mr Mundicha said it was difficult to access foreign currency from the Reserve Bank of Zimbabwe until February this year. They were granted national project status and received a lot of assistance from the Government.

We provide customers with full service design/build integration of solar electric facilities and other systems generating renewable energy. Within our customer relations model, we subcontract all the EPC - Engineering, Procurement and Construction aspects of each project.

Renewable energy producer Solgas Energy is commissioning its Cross Mabale solar power plant in the northern Matabeleland province. The plant, which is connected to the Zimbabwean national grid, has a capacity of 5 MWp.

Zimbabwean energy company, Solgas Energy, has connected the Cross Mabale 5MW solar energy plant in Hwange to the country's national grid. The project is the third independent power producer developed solar project to be connected to Zimbabwe's grid, and the country's biggest to date.

Solgas Energy (Pvt) Ltd is a Zimbabwean registered company that was incorporated under the Companies Act (24:3) in 2015. Its core business is providing full range services and solutions for establishing renewable energy systems, by harnessing ...
