

South Africa whole home battery back up

Where can a battery system be used in South Africa?

For example shops, doctors rooms, and rented offices. The modular nature of the system allows you to select more batteries at a later stage. The system can also be permanently integrated into your electrical distribution board by a competent electrician. Prices quoted include delivery anywhere in South Africa.

Do you need a battery backup system?

With a battery backup system you will be able to watch your favourite TV programme for hours on end. Standard battery backup systems are able to power your TV, computer and a couple of lights - if your battery backup system is not adequate you will be able to add more power onto the unit to increase the power.
