

Will there be a solar panel subsidy in Spain?

However, at the time of writing this there is no confirmation of further solar panel subsidies in Spain. They may be approved in the coming months. It is very likely that - subject to approval - the solar grants will work retrospectively meaning you could install solar panels today and still get the subsidy payment.

Are there government grants for solar panels in Spain?

In this article, we delve into the dynamic world of government grants for solar panels in Spain, focusing on the opportunities and incentives that are currently in effect. So, let's embark on this illuminating journey into the realm of government grants and solar energy in Spain for 2023.

Are you interested in solar panels grants in Spain in 2024?

If you're interested in grants for solar panels in Spain in 2024...then you've missed the boat. Solar panel subsidies ended on 31st December 2023. But don't leave this page yet. There are still three important things to know:

Are solar panels a good investment in Spain?

BARCELONA - Installing solar panels on your home in Spain can be expensive. However, you can significantly reduce that large investment by using subsidy schemes the Spanish government has introduced to stimulate the self-consumption of clean energy. Solar energy in Spain has reached more than 12,400 MW of installed capacity in 2022.

Are solar panels still being paid out in Spain in 2024?

This question confused many people about the grants for solar panels in Spain. The EU-funded solar grants are still being paid out in 2024 even though the deadline to apply for them was 31st December 2023. As we said above, people have actually received this subsidy already.

How are solar panel subsidies financed?

The subsidies for solar panels included in the Recovery, Transformation and Resilience Plan are financed with European "Next Generation" funds. These grants are divided into 6 different programmes and each call is designed to promote a type of installation among companies or individuals. Who can apply for solar panel subsidies?
