## Spark solar energy Peru

What is the largest solar power plant in Peru?

Largest solar power plant in the country kickstarts Peru's renewable energy plans. On Tuesday, the Peruvian government announced the opening of Rubí, the largest solar power plant in the country that boasts over half a million solar panels in the southern city of Moquegua. The driving force behind the initiative, ENEL, ...

## What is a spark solar kit?

Provide access to clean, safe and sustainable energy with the Spark Solar Kit. Every Solar Kit is part of a complete ecosystem consisting of the products, our PayGo integrated Spark portal and on-site support. Thanks to its modular nature, the ecosystem grows along with the development of the village and needs of our partners.

What makes spark a great energy company?

We know that when it comes to energy, customers want to start small and scale up as and when they can afford. At Spark we incorporate true modularity. This means we're don't just offer customers a single expansion offer. We enable them to take on as much as they can afford, when they need it and in 2022 we put this into practice.

Does spark offer a single expansion offer?

At Spark we incorporate true modularity. This means we're don't just offer customers a single expansion offer. We enable them to take on as much as they can afford, when they need it and in 2022 we put this into practice. In 2023 we want to expand on that.
