

Sustainable solar and storage Guinea-Bissau

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group is a unique global partnership: five institutions working for sustainable solutions that reduce poverty and build shared prosperity in developing countries.

Washington -- The World Bank's Board of Executive Directors approved a \$35 million grant to enable solar power generation and increase access to electricity in Guinea-Bissau. The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy generation and network enhancement, including the preparation and ...

International finance institution the World Bank will support the development of Guinea-Bissau's first solar power plants with a \$35 million grant through its Solar Energy Scale-up and Access project.

The \$78.15 million investment in Guinea-Bissau's first solar power plants marks a transformative step towards a more sustainable and electrified future. By reducing carbon emissions and expanding electricity access, the project aims to address the country's significant energy challenges and foster economic growth.

The World Bank has announced that it will support the development of Guinea-Bissau's first solar power plants. Like other West African countries, Bissau wants to use this solution to decarbonise its electricity ...

World Bank funds Guinea-Bissau's first solar power plants for decarbonisation and expanded electricity access. The World Bank, IDA, ESMAP, and GCF committed \$78.15 million to support solar energy development. The project includes multiple solar plants near Bissau and mini-grids on Bijag's islands and aims to benefit 1,200 households and SMEs.

The World Bank is supporting the development of Guinea-Bissau's first solar power plants, aiming to decarbonise electricity production and boost electrification. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already approved a USD \$30 million grant.

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group is a unique global partnership: five institutions working for sustainable ...

Learn about the World Bank's \$35 million grant to Guinea-Bissau for a solar energy project aimed at enhancing electricity access and sustainability through solar power generation and infrastructure development.
