

What is a cubic modular system?

The CUBIC modular system is based on a set of standard parts that allows you to design and construct a tailor-made enclosure that is easy and quick to assemble. The CUBIC modular system provides numerous possibilities for construction of tested panels. With the modular system, the choice of electrical components is completely up to you.

Why should you choose cubic modular?

Whenever the need for a safe and efficient power distribution is needed, the CUBIC Modular system is the answer. The modular thinking behind our signature enclosure system makes it possible to build every type of switchboard solution in the low-power segment, based on several standard parts, without compromising on quality.

Is the modular system verifiable According to the IEC/EN 61439 standard?

The Modular System is verifiable according to the IEC/EN 61439 standard. IEC/EN 61439 has in the fall of 2014 replaced the previous IEC/EN 60439 standard. The versatility of the Modular System enables constructing an electrical switchboard solution for almost every purpose and industry.

What is modular system?

The Modular System is extensively tested by leading and independent test laboratories. This ensures a high validity of our assertions and ensures a documentation and independency, on which all stakeholders can rely. The Modular System is verifiable according to the IEC/ EN 61439 standard.

How big is a cubic module?

The main module of the CUBIC modular system is 192 mm, which is remarkable for being divisible by 12 figures without decimals. During the construction of a panel, logical main and sub modules are used so that the fitter need not take millimetres into consideration. All fitting is done by means of only very few tools.

Where can cubic solutions be used?

Anywhere there is a necessity for safe, reliable and efficient operation of electrical switchgear and equipment. The versatility of the Modular System is underlined by the fact that CUBIC solutions are used in such various industries as OEM, mining, infrastructure, marine, production industry, power plants, renewable energy, offshore etc.

Türkiye is gearing up to help address Syria's critical energy requirements as the war-torn nation embarks on reconstruction after the ouster of the longtime ruler Bashar Assad, a senior official ...

5 ???· Türkiye is gearing up to help address Syria's critical energy requirements as the war-torn nation embarks on reconstruction after the ouster of the longtime ruler Bashar Assad, a senior official said on

Monday.. Speaking to reporters following a Cabinet meeting, Energy and Natural Resources Minister Alparslan Bayraktar highlighted the dire state of Syria's energy ...

3 ???· As jubilant Syrian refugees in Turkey celebrate Assad downfall, analysts wonder what comes next in power vacuum. News. UPDATED: Syria's former president Assad arrives in Moscow. News. Colombian mercenaries trapped in Sudan's conflict. News. Israel launches biggest strike in Yemen, killing 40 people.

5 ???· Türkiye is gearing up to help address Syria's critical energy requirements as the war-torn nation embarks on reconstruction after the ouster of the longtime ruler Bashar Assad, a ...

CUBIC modular system. CUBIC has many years of experience in delivering enclosure solutions based on our modular system that is applicable in several industries. CUBIC has provided solutions for infrastructure and building services projects, OEMs, as well as to the Offshore, Mining and Marine Industries. In addition, CUBIC has delivered solutions to

Qatar is home to a massive 25 trillion cubic metres of gas and has long wanted to build a pipeline connecting its reserves to the lucrative European market. That would transform Syria into a ...

A peaceful Syria could be a key node in an integrated Middle East energy system that finally links up the Gulf, Jordan, Lebanon, Iraq and Turkey. It's very early days, of course. But Syrians and their international well-wishers should understand energy is a core issue for rebuilding a functioning state, economy and human welfare.

Download brochures on the Modular System and the various CUBIC product solutions we offer within the Modular System, e.g. Multi Drawer, Plug-in, Cu-mini etc. If further information is wanted about solutions in relation to your project, ...

Syria's 13-year civil war crippled the country's energy sector, making it highly reliant on imports from Iran. Below are facts about Syria's energy sector. ... ** Natural gas production fell from 8.7 billion cubic metres (bcm) in 2011 to 3 bcm in 2023, according to BP and Energy Institute estimates.

3 ???· As jubilant Syrian refugees in Turkey celebrate Assad downfall, analysts wonder what comes next in power vacuum. News. UPDATED: Syria"s former president Assad arrives in ...
