Figure 4. Cacao beans drying. Photo by Chuck Moravec. As demand for cacao increased in the late 1800s, Portuguese investors began purchasing land from local crioulos (persons of mixed African and Portuguese/European ancestry) and soon the colony of São Tomé and Príncipe was the principal source of cacao for Great Britain's three largest chocolate ...

São Tomé and Príncipe (STP for short) consists of two main islands straddling the Equator off the Atlantic coast of Central Africa.. The Portuguese were the first settlers of these previously uninhabited islands in the late 15th century. Attracting settlers proved difficult, however, and most of the earliest inhabitants were "undesirables" sent from Portugal, mostly Jews.

"As of 2020, the Government of Sao Tome and Principe is planning for the hybridization of one of the main thermal power plants (Santo Amaro) with solar photovoltaic technology through the Energy Transition and Institutional Support

Resources. Fundação Príncipe is committed to the sustainable development of tourism on the islands of São Tomé and Príncipe.
