

Belgian companies Solhyd, COOSHA Impact Venture and local partner Kaoko Green Energy Solutions (Pty) Ltd have partnered in the launch of hydrogen solar panels for cooking and cooling.

With every wave that crashes upon our shores, we find boundless opportunity to unlock the transformative potential of renewable energy. Join us as we embark on this remarkable journey towards a future where sustainability and progress ...

The MOU is devoted to the development of renewable energy and aims to produce green hydrogen from renewable energy sources including wave energy. This latest initiative comes on the back of AW-Energy's latest ...

Finnish wave energy technology developer AW-Energy Oy has signed a memorandum of understanding (MOU) with Kaoko Green Energy Solutions (Pty) Ltd in Namibia, which aims to produce green hydrogen from renewable energy sources including wave energy.

AW-Energy, a leader in near-shore wave energy technology, has signed a Memorandum of Understanding (MoU) with Kaoko Green Energy Solutions (Pty) Ltd in Namibia. The MoU is devoted to the development of ...

AW-Energy, a leader in near-shore wave energy technology, has signed a Memorandum of Understanding (MoU) with Kaoko Green Energy Solutions (Pty) Ltd in Namibia. The MoU is devoted to the development of renewable energy and aims to produce green H₂ from renewable energy sources including wave energy.

Finnish wave energy technology company AW-Energy has signed a memorandum of understanding with Kaoko Green Energy Solutions in Namibia to develop renewable energy infrastructure and produce green hydrogen from renewable energy sources, including wave energy. The initiative will operate in three phases, with the first phase entailing ...

AW-Energy, a leader in wave energy technology, partners with Kaoko Green Energy Solutions to advance renewable energy development in Namibia. The collaboration aims to produce green hydrogen from wave energy, supporting Namibia's sustainability goals and contributing to the country's transition to clean energy. Explore the details of this exciting ...

Kaoko Green Energy Solutions is a Namibian private energy generation assets development company that uses solar, wave and wind energy sources to help reduce the production cost of green hydrogen. The company's flagship project is the Purros Hydrogen Hub (PHH) in the Kunene region in Namibia, which is to be developed on 970 hectares of land ...

The MOU is devoted to the development of renewable energy and aims to produce green hydrogen from renewable energy sources including wave energy. This latest initiative comes on the back of AW-Energy's latest advancement of its WaveRoller™ technology.

AW-Energy, a Finnish near-shore wave energy technology developer, has signed a memorandum of understanding with Kaoko Green Energy Solutions for the deployment of WaveRoller wave energy farms offshore Namibia. The ...

With every wave that crashes upon our shores, we find boundless opportunity to unlock the transformative potential of renewable energy. Join us as we embark on this remarkable journey towards a future where sustainability and progress converge, reshaping the ...
