

Tenants install photovoltaic panels themselves

Should you add solar panels to a rental property?

Adding solar panels to a rental property can increase its desirability to prospective renters, which may lead to higher rental value. Tenants are attracted to the lower utility costs associated with solar energy, as well as the environmental benefits of using renewable energy.

Can You charge tenants for solar power?

You can charge tenants for solar power produced by the solar panels on a rental property. This can be done by integrating the solar energy generated into the tenants' utility bills or through a separate line item charge.

Should a tenancy agreement include solar panels?

In a tenancy agreement, it should be clearly stated that tenants must inform the landlord or property manager if they suspect the solar panels aren't working properly, are damaged, or pose a safety risk. To minimize safety risks, it is vital to keep solar energy systems in good, safe working order.

Do solar panels matter if you're a tenant or a landlord?

The short answer is yes, however, it matters whether you're the tenant or the landlord. While environmentally conscientious, solar panels aren't usually the norm on a rental property. Not only does it matter whether you're the tenant or the landlord, but it also matters whether you're in an apartment or a single home.

Are solar panels a tenancy hazard?

However, tenants should be aware of their responsibilities when it comes to maintaining and reporting any issues with the solar panels. In a tenancy agreement, it should be clearly stated that tenants must inform the landlord or property manager if they suspect the solar panels aren't working properly, are damaged, or pose a safety risk.

Should landlords consider solar photovoltaics?

Solar photovoltaics (PV) is one of the most advanced renewable energy technologies and the most relevant for landlords to consider, thanks to the following benefits. PV can be installed on existing buildings with minimal disturbance during construction and operation, using roof space that would otherwise remain empty.
