The ultimate solar powered off-grid camper for adventurers seeking the roads less traveled. GoSun Camp365 is fully equipped with essential solar appliances for cooking, refrigerating, showering, climate control (optional) and sleeping at remote locations or campsites.

6 ???· A common baseline for an off-grid RV setup is 200-400 watts of solar panels, but this can vary based on lifestyle. Consider the available space on your RV or van roof and the type of panels that fit. Flexible, low-profile solar panels are great for vehicles with curved surfaces, while rigid panels offer better efficiency.
