

# Trina 590 photovoltaic panel size

How much does a Trina 375 watt solar panel cost?

The Trina 375 Watt solar panel costs \$210 on our website. The price for a 375W solar panel from European and Japanese manufacturers can be much higher, but so is the quality. The size of the 375 Watt solar panel may depend on the manufacturer and the design of the module.

How much power does a Trina Solar panel produce?

The TallMax 5BB, 385-410W - TSM-DE15H (II) can achieve up to 410W with a 20.2% efficiency, and the TallMax 345-385W - TSM-DE14H (II) can attain a 385W output with a 19.9% efficiency. The high efficiency and power output of Trina Solar panels means that homes don't need many panels on the roof.

What is Trina Solar?

Based on the aim of improving the system efficiency and reducing the balance-of-system costs, Trina Solar's research and development team has introduced an innovative design of low-voltage and higher module string power output. Typically, Trina can interconnect 33 Vertex modules into a string.

Is Trina Solar a good brand?

It is a very good brand with a high quality product. We are using PV modules manufactured by Trina Solar because we can easily get them here in Australia. Additionally, they are a high quality brand. We have switched from other brands to Trina because we find their products' performance is valuable. We believe that Trina is the premium brand.

Why should you choose Trina Solar products & services?

Vertex 670W, Vertex 550W for example enable commercial and utility-scale solar projects to realize significant system savings. It is the best product for us, so we recommend Trina Solar Products and services especially for the African market because our major problem is substandard products.

How many countries does Trina Solar sell to?

Trina Solar now distributes its PV products to over 100 countries all over the world. We are committed to building strategic, mutually beneficial collaborations with installers, developers, distributors and other partners in driving smart energy together. STC: Irradiance 1000W/m<sup>2</sup>, Cell Temperature 25°C, Air Mass AM1.5.
