

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

What is the microgrid Market Outlook forecast?

The microgrid market outlook forecast is quantitatively analyzed from 2020 to 2030 to benchmark the financial competency. Porter's five forces analysis illustrates potency of buyers and the microgrid market forecast of key vendors. The report includes the industry trends and the microgrid market share of key vendors. Analyst Review

How competitive is the microgrid market?

The microgrid market is highly competitive, owing to strong presence of existing vendors. Microgrid technology vendors, who have access to extensive technical and financial resources, are anticipated to gain a competitive edge over their rivals as they have the capacity to cater to the global market requirements.

Which region will dominate the microgrid market during the forecast period?

The Asia-Pacific region is expected to dominate the market during the forecast period due to a high rate of electrification, mainly for rural or semi-urban areas. This section covers the major market trends shaping the Microgrid Market according to our research experts:

What are the key factors affecting the microgrid market?

The microgrid market is expected to have a robust growth during the forecast period, primarily due to two main factors, i.e., the global demand for clean energy generation and a self-sufficient source of power generation in times of crisis or grid disconnection.

How can microgrids boost business statistics?

Rising integration of renewable energy sources coupled with supportive government policies to encourage the deployment of microgrids through streamlined permitting processes, grid interconnection standards, and financial incentives will stimulate the business statistics.
