Are solar panels stolen?

Several instances of solar panel theft have been reported, including an incident at Gateshead International stadium as well as a larger incident in 2021 in which 221 solar panels were stolen from a solar farm. Solar panel theft is the primary issue, although some landowners report that it isn't just the panels themselves that are stolen.

How much does a solar theft cost?

Strecke says European solar thefts typically cause EUR60,000 (\$63,900) of damage, when repairs and loss of business are factored in. "Solar crime is on the increase," says Rachael Oakley, director of crime intelligence at Telford-based DeterTech, formally known as SmartWater Group thanks to its product-marking technology.

Are solar panels causing a spate of theft in the UK?

This specific spate of theft has been triggered by soaring values - particularly in relation to metals and machinery - and the low supply of farm machinery worldwide. And alongside machinery, recent figures from the UK police suggest criminals have set their sights on another lucrative opportunity - solar panels.

Are solar panels a crime?

Vandalism is not always a planned, deliberate crime. Still, it can be caused by disruptive individuals who see a remote field of solar panels as a chance to cause extreme damage without being caught, smashing solar panels and rendering them redundant.

How many solar panels can a thief remove?

Viamon's Strecke says organized raiders typically remove 100 panels to 300 solar panels - 10 tons' worth at the top end. In one case, he adds, thieves removed more than 15,000 panels - 5 MW of generation capacity - in one weekend. "It is organized crime, with big logistics in the background," he says.

How much property was stolen from UK solar sites last year?

Speakers at the event, held in Telford, in the west of England, appealed for solar site owners to report all incidents of criminal damage, no matter how small. Taylor said GBP 574,300 (\$691,500) worth of property was reported stolen from UK solar sites last year, but noted that the real figure is likely higher.

solar PV panel anti-theft module. The wireless controller has the ability to re-enable the solar PV panel in the event of theft or any other events such that the solar PV panel is relocated. The ...
