

What are the warranty agreements for energy storage systems

What is a warranty for battery energy storage systems?

Warranties for Battery Energy Storage Systems (BESS) provide mechanisms for buyers and investors to mitigate the technical and operational risks of battery projects, by transferring the risk of defects or performance issues to the manufacturer or the battery vendor.

What are the different types of storage warranty?

In the energy storage sector, there are two main types of warranties: a product warranty, which is a guarantee against defects, and a performance warranty. In this context, we do not focus on the product warranty as much.

Why do you need warranty insurance for your energy storage system?

Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.

How long do energy storage systems last?

Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.

What is an EPC agreement for a battery energy storage system?

The negotiation of an engineering, procurement and construction (EPC) agreement for a battery energy storage systems (BESS) project typically surfaces many of the same contractual risk allocation issues that one encounters in the negotiation of an EPC agreement for a solar or wind project.

What do insurance companies look for in a storage company?

Insurers consider balance-sheet support and look for a developer to make a guarantee that is similar, if not stronger. In the context of energy storage, there are usually two types of warranties. First, there is a product warranty, which is a guarantee against defects.

The warranty of energy storage system products is divided into basic warranty and advanced warranty. After the device is delivered, the basic warranty is automatically obtained. ... In all ...
