

# What taxes should be paid for renting energy storage systems

Will government grant tax relief on battery storage systems?

In a much-needed move towards energy efficiency, the government has unveiled plans to grant tax relief on battery storage systems.

Are battery energy storage systems exempt from VAT?

Effective 1 February 2024, the UK government has exempted retrofitted battery energy storage systems (BESS) from the 20% VAT. This recent and welcomed development means homeowners looking to upgrade their homes with energy storage now enjoy the same tax benefits as those incorporating energy-saving materials like heat pumps and roof-mounted solar.

Why has the UK extended tax relief on battery storage systems?

"It's fantastic that the government has extended tax relief on battery storage systems. The expanded VAT relief aligns with the UK's commitment to reducing carbon emissions and promoting green energy solutions.

What is battery storage tax relief?

The tax relief initiative, focusing on battery storage systems, is pioneering. It recognises the indispensable role that battery storage plays in bolstering the clean energy sector and propels the UK towards achieving more sustainable energy solutions. Tax relief eligibility for battery storage Projects

Are solar and energy storage installations subject to VAT?

All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.

Will electric battery storage be a part of the VAT relief?

"The government agrees with respondents, though, that this technology meets all of the stated objectives for this VAT relief in its own right, and will therefore bring electrical battery storage within the scope of the relief.

By definition, a Battery Energy Storage Systems (BESS) is a type of energy storage solution, a collection of large batteries within a container, that can store and discharge electrical energy ...
