

# Xianghui Wind Power Generation Co Ltd

What makes Shanghai Electric a good wind turbine company?

Shanghai Electric has the leading design capability of wind turbines (including key components such as blades, control system, tower, etc.), and is able to develop offshore wind turbines independently. Moreover, the company provides customized and optimized designs and services based on specific wind resources and climate.

Who is Shanghai Electric Wind Power Group?

Shanghai Electric Wind Power Group, based on six R&D centers in Shanghai, Beijing, Denmark and other regions, has built a global technical R&D system. The combination of technology introduction and independent R&D leads the innovation and development of Chinese wind power industry.

What's new in China's offshore wind power parity market?

SHANGHAI, June 24, 2022 /PRNewswire/ -- Shanghai Electric Wind Power Group Co., Ltd.'s (Shanghai Electric) first EW8.X-230 wind turbine generator rolled off the production line at the Putian manufacturing facility on June 10, representing a new milestone in China's offshore wind power parity market.

Who makes ew8 x 230 wind turbine generator?

Upgrade your news experience today! SHANGHAI, June 24, 2022 /CNW/-- Shanghai Electric Wind Power Group Co., Ltd.'s (Shanghai Electric) first EW8.X-230 wind turbine generator rolled off the production line at the Putian manufacturing facility on June 10, representing a new milestone in China's offshore wind power parity market.

What is the capacity of a wind turbine?

The wind turbine capacity ranges from 1.25MW to 8MW+ with full capacity range coverage. Shanghai Electric Wind Power Group, based on six R&D centers in Shanghai, Beijing, Denmark and other regions, has built a global technical R&D system.

Why should China use a wind generator?

Despite the average low wind speeds, the generator provides a cost-effective solution for the utilization of wind as an energy resource to drive the development of wind farms and allow China to meet the targets of carbon peaking and carbon neutrality as we enter the era of offshore parity.

Through technical innovation, it successfully realized quadruple co-generation of electricity, steam, hot water, and refrigeration in 2010, becoming a model for regionally distributed energy ...

CGN Wind Power Limited is a subsidiary wholly owned by CGN (China General Nuclear Power Group) which focused on the development of clean energies such as nuclear power, nuclear ...
